

Leica Cyclone FIELD 360 Quick Plan View. Check. Add.

Quick Plan is an optional, purchased add-on that can be accessed within the Leica Cyclone FIELD 360 mobile-device app to enhance existing in-field 3D reality capture workflows. It allows users to create rooms by swiping along walls within the captured data to provide immediate results from the field. Users can define doors and windows, export a 3D model and share it with project collaborators in the office - all from their tablet computer or smartphone.

BENEFITS

- An add-on to existing Cyclone FIELD 360 functionality and licences, running on consumer-grade mobile devices powered by Android and iOS
- An in-field tool to quickly create floor plans and models based on data captured with Cyclone FIELD 360
- Quickly create simple, complete room layouts in IFC or DXF format that can be delivered directly to clients or brought into CAD packages to refine
- Universal support for all Leica Geosystems terrestrial laser scanners (BLK360, RTC360 and ScanStation P-Series)
- Simple, touch-friendly navigation makes it easy to create the deliverable you need
- Perfect companion for all indoor modelling applications

Leica Cyclone FIELD 360 Quick Plan

Your modelling workflow, simplified

With Quick Plan, users can immediately start to model in the field while scanning to reach maximum productivity. The data can be shared with office colleagues for immediate QA/QC checks but is also passed through the traditional office ecosystem. Quick Plan is an integral part of the project as it travels downstream. By investing in Quick Plan, users can be more efficient in the field no matter if the project is to create complex models or simple room layouts.

Quick Plan is an optional add-on for Cyclone FIELD 360 and can be used with all current generation Leica Geosystems terrestrial laser scanners (BLK360, RTC360 and ScanStation P-Series). To gain access to Quick Plan export functions, users can purchase a Quick Plan subscription and add it to a Cyclone Cloud account with an existing Cyclone FIELD 360 or Cyclone REGISTER family licence.
